

Welcome to Neuro Nutri Clinic

Where Neuroscience Meets Nutritional Precision

At Neuro Nutri Clinic, we believe that a healthy mind starts at the cellular level. Founded by **Shirin Akhavi**, our clinic was born out of a passion for understanding the complex relationship between the brain, the body, and the nutrients that fuel them both.

Our Philosophy

We don't just treat symptoms; we investigate the biological "why." Whether you are struggling with chronic insomnia, brain fog, or emotional imbalances like anxiety and ADHD, we look beneath the surface. By utilizing advanced tools—such as **Hair Mineral Analysis**, **Applied Nutritional Microscopy** and **Fatty Acid Analysis**—we identify the specific mineral deficiencies and inflammatory markers that are holding you back.

Meet Shirin Akhavi

With a multidisciplinary background in **Neuroscience, Homeopathy, and Holistic Nutrition**, Shirin brings a unique perspective to integrative health.

- **Expertise:** Certified Brain Health Professional (Amen University) and trained in Integrative Psychiatry (Psychiatry Redefined).
- **Education:** Master's of Science in Applied Neuroscience (King's College London) and Specialized in Sustainable Nutrition through **Harvard Medical School** and Nutritional Microscopy through the Edison Institute of Nutrition.
- **Approach:** Shirin combines high-level scientific research with natural modalities like **Homeopathy, Orthomolecular medicine, Holistic Nutrition and Lifestyle, Schussler**

Tissue Salts, Fatty Acid Balancing, Bach Flower Remedies and more to create protocols that are both scientifically rigorous and deeply restorative.

Our Mission

At Neuro Nutri Clinic (NNC) we provide you with a science-backed, sustainable roadmap to health. At NNC, we empower you to optimize your brain performance and reclaim your vitality through precision nutrition and evidence-based lifestyle interventions.

About

Shirin Akhavi *Holistic Integrative Practitioner Founder of Neuro Nutri Clinic*

Bridging the Gap Between Neuroscience and Holistic Nutrition

At **Neuro Nutri Clinic**, I believe that true health is not just the absence of symptoms—it is the optimization of your mental, emotional, and physical potential. My mission is to move you away from "guessing" with supplements and towards a precision-based protocol rooted in cellular science.

The "Insider" Advantage

My journey didn't begin in a clinic—it began in the global marketplace.

"My background in **International Commerce and R&D** allows me to look behind the label; I leverage years of experience in global raw material sourcing and product formulation to ensure that every supplement recommended at **Neuro Nutri Clinic** meets the highest standards of purity, bioavailability, and clinical efficacy."

When I recommend a protocol, I know exactly where the ingredients come from and how they work in your body.

A Decade of Dedication & Academic Excellence

My practice is built on a foundation of rigorous standards and long-term commitment.

- **A Pillar of consistency:** I have been a member in good standing of the **International Organization of Nutritional Consultants (IONC)** since **2014**, adhering to the strict ethical standards of Orthomolecular health for over a decade.
- **Top-Tier Academics:** In **2017**, my commitment to academic excellence was recognized by the **Golden Key International Honor Society**, placing me among the top 15% of high-achieving students globally.

The "Neuro-Nutri" Philosophy

I specialize in the connection between the **brain and the gut**. By combining the diagnostic frameworks of **Amen University (Brain Health)** and **Psychiatry Redefined** with the energetic healing of **Homeopathy**, I offer a truly integrative "Neuro- Nutritional" approach.

I don't just treat the "mind" or the "body" separately. Whether we are using **Applied Nutritional Microscopy** to view your cells in real-time or **Hair Mineral Analysis** or your **Fatty Acid Profile**, my goal is to help you build a biological foundation that supports a vibrant, focused life.

My Credentials & Affiliations

- **Certified Brain Health Professional** (Amen University)
- **Integrative Psychiatry Training** (Psychiatry Redefined)
- **Registered Nutritional Consultant** (IONC - Member since 2014)
- **Golden Key International Honour Society** (Member since 2017)
- **Canadian Society of Orthomolecular Medicine** (CSOM)
- **College of Homeopaths of Ontario** (CHO)
- **North American Society of Homeopaths** (NASH)
- **Harvard Medical School: Sustainable Nutrition Training**

Why I Do This

I founded Neuro Nutri Clinic because I saw too many people "falling through the cracks" of standard healthcare. They were told their blood work was "normal," yet they felt exhausted, anxious, and foggy. I am here to validate your experience with data and provide you with a roadmap to recovery that is sustainable, scientific, and deeply supportive.

[Button: Book Your Initial Consultation]

Design Tip:

On the actual webpage, I recommend placing your **Credential Logos** (IONC, Golden Key, CHO, etc.) in a row directly underneath the "My Credentials & Affiliations" list to create a visual "Trust Bar."

Does this capture the professional yet personal tone you are looking for?

Our Services at Neuro Nutri Clinic

At Neuro Nutri Clinic, we don't believe in "one-size-fits-all" health. We provide a tiered approach to wellness, moving from deep diagnostic analysis to consistent, habit-forming support.

1. The Initial Deep-Dive Consultation

The Foundation of Your Journey

Before we begin, we need a clear picture of your internal landscape. This comprehensive session includes:

- **Nutritional Assessment:** A comprehensive evaluation of your life history, diet, and lifestyle designed to uncover the root causes of your symptoms through specialized intake forms and clinical consultations.
- **Brain Health Assessment:** Reviewing cognitive patterns, focus, and stressors.

NNC Protocol: A customized diet and lifestyle plan designed to balance nutritional deficiencies and address toxicities, optimizing your mental, emotional, and physical well-being through targeted, science-based modalities.

2. 15-Minute Weekly "Neuro-Check"

The Key to Sustainable Change

Success is built in the small, daily choices. Our signature 15-minute weekly check-ins are designed for the busy individual who wants accountability without the overwhelm.

- **Protocol Fine-Tuning:** We adjust your dosages based on your body's immediate feedback.
- **Consistent Support:** Quick, focused sessions to keep you on track and answer your questions as they arise.

Frequently Asked Questions (FAQ)

Diagnostic Tools: Mapping Your Biology

What is Applied Nutritional Microscopy? This is a live analysis of a single drop of blood. By viewing your cells in real-time under a high-powered microscope, we can see immediate markers of inflammation, oxidative stress, and nutritional deficiencies. This provides an instant visual "roadmap" for your customized protocol.

How does Hair Tissue Mineral Analysis (HTMA) work? HTMA is a non-invasive screening that uses a hair sample to measure the mineral content of your tissues. Unlike blood tests that show a "snapshot" of the moment, hair analysis provides a 3-

month metabolic blueprint. This allows us to identify heavy metal toxicities and long-term mineral imbalances that are the root causes of low energy and chronic stress.

What is the Zinzino BalanceTest (Fatty Acid Analysis)? This scientific dried-blood-spot test measures your Omega-6:3 ratio. It allows us to quantify systemic inflammation and precisely tailor your intake of essential fatty acids to optimize brain function and cardiovascular health.

Therapeutic Support: Balancing Mind & Body

How do you specifically address Brain and Mental Health? We view mental health as a reflection of physical brain function. Using frameworks from **Amen University** and **Psychiatry Redefined**, we focus on the gut-brain axis and neurotransmitter balance. We optimize your "biological hardware" to improve focus, stabilize mood, and resolve the physiological triggers of anxiety and insomnia.

What is the role of Homeopathy at Neuro Nutri Clinic? Homeopathy is used to stimulate your body's innate healing response. By selecting highly individualized remedies based on your unique physical and emotional symptoms, we address the "vital force" of the body. This helps resolve deep-seated imbalances and supports your system in a way that nutrition alone cannot.

Why are Schussler Tissue Salts part of the NNC Protocol and why do I need to chew them?

These are 12 essential micro-minerals prepared for immediate cellular absorption. They bypass complex digestive processes to restore mineral balance at the cellular level, which is crucial for nerve health, metabolic function, and physical recovery.

We recommend chewing them because they are absorbed through the mucous membranes in the mouth, entering your bloodstream directly for faster and more efficient use by your body.

How do Bach Flower Remedies help with Emotional Balancing? We utilize these essences to address the emotional aspect of health. They help clear negative emotional states like fear, uncertainty, or overwhelm. By balancing your emotional body alongside your physical nutritional needs, we create a truly integrative path to wellness.

How do the 15-minute check-ins work?

These are "laser-focused" sessions held via video or phone. We review your weekly tracker, adjust your remedy dosages if needed, and discuss one specific health hurdle. It's the highest level of accountability in the shortest amount of time.

Can I take these supplements with my current medication?

While our protocols focus on natural minerals and vitamins, we always review your current medications during the Initial Deep-Dive Consultation to ensure everything is balanced and safe for your specific needs. Though you need to consult with your physician regarding this matter.

Get in Touch

Ready to start your journey at Neuro Nutri Clinic?

Have a question about our protocols or want to see if we are the right fit for you? Fill out the form below, and Shirin will get back to you within 24–48 hours.

[Contact Form]

- **Name:**
- **Email:**
- **Primary Goal:** (Dropdown: Sleep Support / Brain Fog / Energy / Emotional Balance)
- **Message:**

[Submit Button]

-
- **The NNC Journey: From Root Cause to Vitality**
 - **1. Discovery & Assessment** We begin by reviewing your life history, diet, and lifestyle through comprehensive intake forms. This allows us to map out the potential environmental and habits-based drivers of your symptoms.
 - **2. Biological Data (Diagnostics)** We move from theory to evidence if requested by using **Applied Nutritional Microscopy**, **Inflammatory Blood test (Zinzino)**, and **Hair Tissue Mineral Analysis**. By seeing your cells in real-time and measuring your mineral "bank account," and other markers, we identify exactly what your body is missing and what toxicities need to be cleared.
 - **3. Nutritional Rebuilding (The Hardware)** We implement your customized NNC diet and lifestyle protocol. Using specific supplements and minerals such as **Schussler Tissue Salts** and targeted, high-bioavailability nutrients, we stabilize your physical "hardware"—rebalancing your biochemistry and calming the nervous system.
 - **4. Homeopathic Integration (The Software)** Once the physical body is supported, we introduce individualized **Homeopathy**. This step addresses the "vital force," using specific remedies to help clear deep-seated emotional patterns and stimulate your body's innate ability to heal itself from the inside out.

- **5. Optimization & Peak Performance** In the final phase, we fine-tune your protocol for long-term maintenance. We ensure your mental, emotional, and physical bodies are synchronized, leaving you with a clear mind and a resilient body.

A "Who This Is For" Section

- **Do you struggle with:** Chronic insomnia, brain fog, anxiety, or ADHD, or digestion and metabolic issues?
- **Are you looking for:** A science-backed alternative to "one-size-fits-all" supplements?
- **Are you ready to:** Commit to cellular-level healing and lifestyle changes?

3. The "Neuro-Nutri" Blog/Resources

To stay relevant in Google searches (SEO), you should have a section for short articles. This establishes you as a **Thought Leader**.

- *Example topics:* "Why your Vitamin D isn't absorbing," "The connection between minerals and anxiety," or "How to read your own Zinzino test."

4. Credentials & Associations (Trust Badges)

Our Commitment to Clinical Excellence

At **Neuro Nutri Clinic**, we believe that natural medicine must be held to the highest professional standards. My practice is grounded in continuous education and regulated clinical oversight. By maintaining active memberships and certifications with leading international organizations in Orthomolecular Medicine, Brain Health, and Homeopathy, I ensure that every protocol provided is safe, evidence-based, and aligned with the latest advancements in integrative healthcare.

Professional Credentials & Affiliations

International Society of Orthomolecular Medicine (ISOM) *Since 2022*

College of Homeopaths of Ontario (CHO) *Since 2020*

North American Society of Homeopaths (NASH) *since 2021*

Amen University / Brain Health Professional *Specialized training in brain and neuro-biological health strategies.*

Psychiatry Redefined *Advanced training in functional and integrative psychiatry.*

Golden Key International Honour Society *since 2018*

International Organization of Nutritional Consultants (IONC) *since 2014* *Professional standards in nutritional consulting as the ROHP (Registered Orthomolecular Health Practitioner).*

How to display these on your site:

1. **The Footer:** Place them in a row at the very bottom of every page.
2. **The "About Shirin" Page:** Place them directly under your bio to reinforce the "Look behind the label" sentence we wrote earlier.
3. **The Sidebar:** On your "Services" page to show that each modality is backed by a recognized governing body.

The "Data-Driven" Advantage: Advanced Diagnostics

I don't believe in "guessing" when it comes to your health. My protocols are rooted in hard data, using the industry's most advanced screening tools to measure what is happening inside your cells:

- **Zinzino BalanceTest (Fatty Acid Profile):** Using a specialized dried-blood-spot test, I measure 11 essential fatty acids to determine your **Omega-6:3 ratio**. This is a critical marker for systemic inflammation. Most people believe they are healthy while living in a "pro-inflammatory" state; I provide the precise BalanceOil+ protocol needed to bring this ratio back to 3:1 for optimal brain and heart health.
- **Hair Tissue Mineral Analysis (HTMA):** Your hair is a biological record. I use HTMA to identify heavy metal toxicities and long-term mineral deficiencies that a standard blood test might miss. This allows us to see how your body has been handling stress and metabolism over the last 90 days, providing a blueprint for your mineral replenishment.

You can now list your **Four Pillars of Analysis** to show your clinic's depth:

1. **Live & Layered Blood Analysis:** Real-time cellular health and digestive terrain.

2. **Hair Tissue Mineral Analysis (HTMA):** Long-term mineral balance and heavy metal screening.
 3. **Integrative Homeopathy:** Constitutional remedies for deep-seated healing.
 4. **Bach Flower Therapy:** Targeted emotional and nervous system support.
-

[LinkedIn "Summary" Update \(Add this\):](#)

"Utilizing advanced screening tools such as **Live Blood Microscopy** and **Hair Tissue Mineral Analysis (HTMA)**, I provide my clients with measurable data to track their progress. This objective data, combined with the energetic support of **Homeopathy** and **Bach Flowers**, ensures a truly holistic and science-backed path to wellness."

[How to present this on your LinkedIn "Services":](#)

Clinical Assessment Modalities at Neuro Nutri Clinic:

- **Live Blood Analysis:** A cellular-level view of your internal terrain to identify nutritional gaps and digestive efficiency.
- **Classical Homeopathy:** Constitutional care designed to stimulate the body's natural healing response.
- **Bach Flower Essence Therapy:** Targeted emotional support to balance the nervous system and manage the mental impact of chronic stress.

Professional Certifications & Continuing Education

Clinical Nutrition & Functional Medicine

- **Harvard Medical School — Executive Education**
Health and Wellness: Designing a Sustainable Nutrition Plan (Nov 2023)
- **Edison Institute of Nutrition**
Applied Nutritional Microscopy
- **Amen University — Brain Health Certified**
Coaching Elite Brain Health Certification Course (Nov 17, 2025)

- **Brain Academy**
Meet Your Brain — Certificate of Graduation (Jan 21, 2025)
- **Certificate of Completion**
Functional Medicine & Nutritional Interventions for Bipolar Disorder Webinar (Feb 20, 2025)
- **Certificate of Completion**
Functional Medicine & Nutritional Interventions for Bipolar Disorder Webinar (Feb 20, 2025)

Integrative Psychiatry Training

Psychiatry Redefined — Introduction to Functional & Integrative Psychiatry Training

Includes:

- Introduction to Functional Psychiatry for Depression & Anxiety (1 hr)
 - Functional & Integrative Medicine for ADHD (3 hrs)
 - Functional & Integrative Medicine for Anxiety (4 hrs, 5 CME/3 CE)
 - Functional & Integrative Medicine for Depression (4 hrs, 5 CME/3 CE)
 - Clinical Supervisions: 4 hrs of live case discussions
- Instructor: Dr. James Greenblatt

Professional Experience

Head of R & D, Akhavi Laboratory — 2007–2011

- Led research and development for cosmetic and healthcare products (Seagull & Prime brands)
- Sourced and evaluated raw materials for quality, price, and delivery time
- Maintained comprehensive ingredient and substitute database
- Managed full-cycle manufacturing projects from concept to mass production

Director of Commerce, Akhavi Laboratory — 1995–2007

- Managed procurement for all production materials
- Conducted international negotiations and supplier communications
- Oversaw raw material quality control
- Reported directly to the CEO
- Balanced quality, price, and logistics for optimal material sourcing

Holistic Nutritionist — 2014–Present

- Design individualized nutritional protocols for chronic and acute cases
- Integrate functional assessments, microscopy findings, and nutrition plans
- Provide stress, digestion, detoxification, and metabolic health protocols

Homeopath — 2017–Present

Design individualized nutritional protocols for chronic and acute cases

- Integrate functional assessments, microscopy findings, and nutrition plans
 - Provide stress, digestion, detoxification, and metabolic health protocols
 - Acute and chronic case management
 - Remedy selection through classical and integrative approaches
 - Incorporation of homeopathy with nutrition and functional medicine for whole-person care
-

Specialties

- Functional & Integrative Nutrition
 - Brain Health & Neuro-Nutrition
 - Mental Health (ADHD, anxiety, depression)
 - Homeopathy (acute & chronic)
 - Microscopy & Clinical Case Analysis
 - Stress, Hormone & Metabolic Balance
-

Memberships

- IONC — International Organization of Nutritional Consultants
- International Schizophrenia Foundation (2014)
- Canadian Society of Orthomolecular Medicine (CSOM) (2015)
- North America Society of Homeopaths (NASH)
- Golden Key International Honor Society
- National Association of Nutrition Professionals (NANP)
- College of Homeopaths of Ontario (CHO)

Skills & Interests

- Reading & Writing — Published the book *From Point to Volume* (Farsi); English translation in progress
- Lifelong learning in neuroscience, human behavior & functional medicine
- Reiki — Master Level

Skills

- Clinical Case Assessment & Protocol Design

- Holistic & Functional Treatment Planning
- Supplement Protocol Development
- Patient Communication & Education
- Research & Evidence-Based Practice
